Integrated logistics provider

We centralize, coordinate and optimize the entire supply chain from our logistics hub in Barcelona.

Nordlogway is a **3PL logistics provider** with more than 70 years of experience. We operate warehouses in the province of Barcelona and offer our clients the **outsourcing of their supply chain management**. Our IT **integration** allows us to provide comprehensive logistics solutions tailored to each client.

Nordlogway has **strategically located warehouses in the provinces of Barcelona and Girona** (next to the C-25 and AP-7 highways), with excellent connections to the main transport routes to France, the rest of the Iberian Peninsula, and the Port and Airport of Barcelona.

In addition, **Nordlogway sector-specific logistics facilities**, a highly qualified team, and a strong network of reliable partners.

Our logistics warehouses are equipped with the **latest technology, ensuring maximum security and safety of goods and operations**.

Nordlogway holds the following certifications and official registrations:

- ✓ **ISO 9001**: Quality Management System
- ✓ **ISO 14001**: Environmental Management System
- ✓ **ISO 27001**: Information Security Management System. Compliance with the NIS2 Directive on cybersecurity
- ✓ **RSIPAC** and **RGSEAA**: Health registration authorizing the storage of food products
- ✓ **EcoVadis**: Corporate sustainability standard

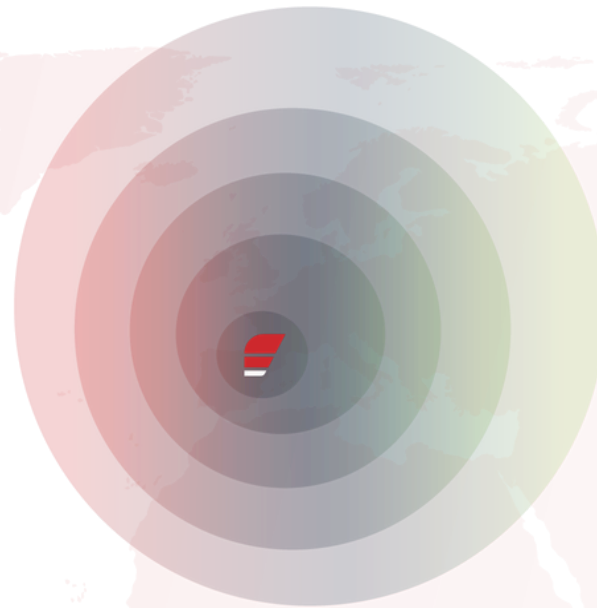

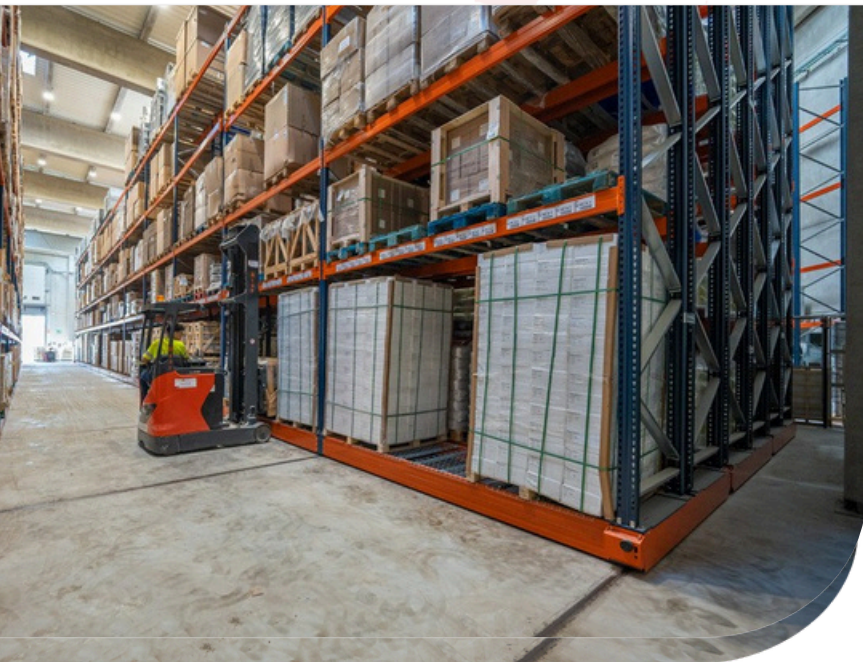

- ✓ **SILUM Registration**: Authorization for the storage and distribution of raw materials and products for animal feed
- ✓ **APQ Warehouse**, registered in the Catalonia Industrial Safety Register (RITSIC) under ITC MIE APQ 10, complying with current regulations for the safe storage of chemical products

Integrated logistics services

We manage all our clients' logistics in an integrated way: storage, transport, technology and value-added services.

Logistics

Management of all the logistics of our clients or the **outsourcing** of all types of services associated with their logistics activities.

Nordlogway has different **warehouses specialized and certified for food, industrial, chemical products, among others.** In all warehouses, the security of our clients' goods is guaranteed during storage, handling and transport.

- ✓ **Product storage**
(Human food, RESIPACK) (Animal feed, SANDACH) (Industrial product)
- ✓ **APQ Storage**
(chemical product)
- ✓ **Box picking**
- ✓ **Cross-docking**
- ✓ **Reverse logistics**

Transport

Transport services with the highest standards of security and reliability, both in national transport (Iberian Peninsula, Balearic Islands and Canary Islands) and international, by land and sea.

Pioneers and specialists in the **transport of ADR dangerous goods** (except those of class 1 and 7, explosive and radioactive materials).

- ✓ **FTL and LTL loads (full and partial)**
- ✓ **ADR transport**
- ✓ **Groupage**
- ✓ **Distribution**
- ✓ **Reverse logistics in transport**

E-commerce B2B

Logistics services specialized in B2B e-commerce projects that incorporate all processes from reception, storage, picking, packing...

With the possibility of **integration into your online store** and offering **maximum security and technology** through our highly innovative warehouses.

We have our own platform integrated into our ERP that allows clients to manage directly from the private area of the website the warehouse entries and exits, as well as the scheduling of shipments, with real-time visibility of their logistics operations.

Value-added services

Nordlogway offers a wide range of value-added services to optimize the efficiency and flexibility of clients' logistics operations.

Supply chain integration

Connection and optimization of the entire supply chain through the Nordlogway platform, guaranteeing efficient management, real-time visibility and smooth coordination between all logistics agents.

Quality inspection

Exhaustive quality inspections are carried out to guarantee that the stored products comply with the standards desired by clients.

Logistics consulting and in-house solutions

Strategic advisory and supply chain reengineering service to optimize processes and improve competitiveness. Integration of in-house teams to manage logistics operations directly at the client's facilities.

Product and process personalization

Personalization services to adapt products and processes to the specific requirements of clients.

Logistics optimization and inventory management

Improvement of supply chain efficiency with continuous analysis, contingency plans and advanced technologies. Intelligent stock management and flexible storage solutions.

Sustainability

At Nordlogway we are committed to sustainable practices throughout the entire logistics process.

Labeling

Precise and professional labeling services to guarantee compliance with regulations and facilitate the identification of products.

Packaging and repackaging

Management of packaging and repackaging carefully, ensuring that the products are safe and optimally presented for delivery.
